

The background of the entire image is a close-up, high-angle shot of numerous spools of thread. The spools are arranged in a dense, overlapping pattern, filling the frame. They are all a deep, rich blue color, matching the overall monochromatic theme. The lighting is soft, highlighting the texture of the thread and the circular shape of the spools. The brand name 'Carlo Bassetti' is centered in the middle of the image in a white, elegant script font.

About Us

From *cotton* to *linen*, from *stretch* to *viscose*, from *yarn dyed* to *plain ones*, the Tessitura Carlo Bassetti has always offered new proposals to the most important Italian and international fashion brands, and their men's, women's, and children's collections.

*Tradition &
Made in Italy*

HISTORY

4

A Historic Company

Since 1875, the Tessitura Carlo Bassetti has been producing *countless types of textile fabrics*, being able to meet the needs of a market in constant evolution.

The company is located in the heart of the province of Varese, 40 kilometres from Milan and a few minutes away from Malpensa international airport.

Its in-house weaving, a network of trusted contractors and a warehouse of *over 30.000 square meters*, offer maximum flexibility both in terms of collection and *exclusive productions*.

These features also guarantee an excellent value for money over the entire product range.

Our Made In Italy

The collections are entirely produced in Italy thanks to the latest generation of looms, included dobby and jacquard

The Spring/Summer and Fall/Winter collections *are entirely produced in Italy* thanks to the latest generation of looms, included dobby and jacquard. Furthermore, a team of trusted contractors with proven quality, and some *historical dyers* of the area who have always collaborated with the Tessitura Carlo Bassetti, allow us to transform our designers' ideas into *innovative and sophisticated fabrics*,

both in terms of designs and finishing. Competitive prices, *low minimum quantities* required for each colour and *fast delivery* make the Tessitura Carlo Bassetti collections' offer particularly interesting compared to its direct competitors. Finally, the proven organizational flexibility allows us to offer *exclusive productions* under the same conditions.

Our Prints

We offer the possibility of using the most different bases, as well as developing exclusive customer designs

VISIT OUR
CATALOGUE ONLINE

*Flexibility is also a watchword for the Tessitura Carlo Bassetti printed items. In addition to a series of designs in our collection printed both **rotary and digital**, we offer the possibility of using the most different bases within our sample collection, as well as **developing exclusive customer designs**. Our delivery times are less than 30 days and the **excellent quality /price ratio** distinguishes our entire product offer.*

Stock Service

An unusually large warehouse for the sector - *over 30.000 square meters* divided between the historic headquarters of Gallarate and the more recent storehouse of Verbania - allows a constant supply of items *ready for delivery*.

*Low minimum quantity,
ready to deliver*

STOCK SERVICE

15

Stock Service

Over 30.000 square meters allows a constant supply of items ready for delivery, both yarn dyed and piece dyed

From cotton to linen, from stretch to viscose, from non-iron to velvet, there is an offer of *more than a hundred items* in our stock service program.

They come at *extremely advantageous prices* with a minimum quantity required

of only 60 meters/colour. These commercial conditions, combined with the size of the warehouse, make it possible to satisfy both requests for very *large quantity in a limited time* and *smaller orders* that are divided between different colour variants.

17

Sustainability

More than a hundred years ago we had already an eye for sustainable resources, *building our own hydroelectric power plant*. Nowadays, we also limit the environmental impact of our business as much as possible by designing and manufacturing textiles that, because of the *raw materials* used and the *way they are processed*, can guarantee to end consumers a sustainable product.

*An environmentally
friendly company*

SUSTAINABILITY

19

Sustainability

Energy efficiency is an equally crucial issue in terms of production processes, thanks to the use of latest generation looms, and levels of energy consumption.

As a result of these concerns, we were granted the **OEKO-TEX® STANDARD 100** certification for our collections. Furthermore, through our line made in organic cotton, we have also earned **GOTS**,

while **GRS** recognizes our recycled items. We are also a member of **BCI**, the Better Cotton Initiative, ratifying that it is not fine words, but hard facts that make the difference towards better future.

Tessitura

OEKO – TEX

20

OEKO-TEX®

OEKO TEX® STANDARD 100

This certification is an independent and uniform international control system for *raw materials*, semi-finished and finished products. It is used in the textile sector at all levels of processing, and can also be applied for accessory materials, allowing those products that *do not present any risk to the health* of the consumer to be identified.

OEKO-TEX® toxic substances controls are mainly designed considering the intended use of the fabrics and materials. The more intense the contact of a product with the skin and the more sensitive the latter is, the stricter the *human-ecological requirements* must be.

GOTS & GRS

22

GOTS & GRS

GOTS

GRS

GLOBAL ORGANIC TEXTILE STANDARD CERTIFICATION

The use of natural organic fibers, process tracking throughout the production chain and the adoption on *sustainable procedures* has led to the formalization of the *GOTS* international standard.

It allows the production and promotion of environmentally friendly textile products and workers' fundamental social rights.

GLOBAL RECYCLE STANDARD CERTIFICATION

The *GRS* certifies products obtained from *recycled materials* and manufacturing processes.

It promotes products made with recycled materials, in compliance with environmental and social criteria, which extend to all stages of our production chain.

Tessitura

BCI

23

BCI

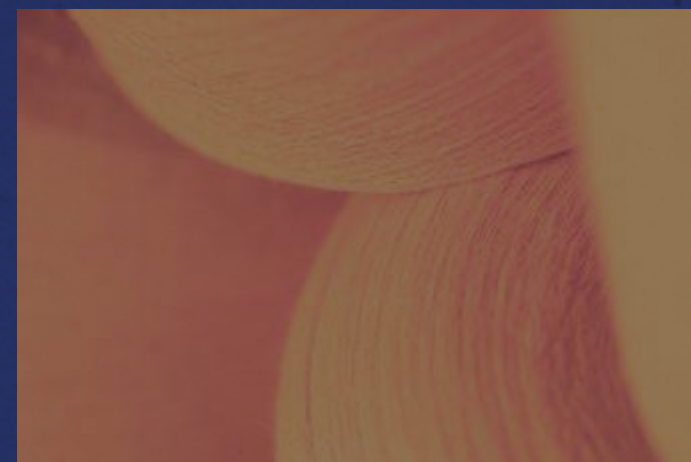

BETTER COTTON INITIATIVE

BCI is a **non - profit association** of manufacturers, farmers and intermediaries throughout the world. It is born to improve the **global cotton production**, for the people who produce it, for the environment and for the future of the

sector, allowing to reduce the use of pesticides and water. Tessitura Carlo Bassetti has decided to **join this initiative** with enthusiasm to leave the future generations a better environment.
